FRANCE

Dear Dr. Peres:

It gives me great pleasure to write this note of appreciation to you and your organization for your support of our society.

This past October, Dr. Michel Pluviose of your organization presented an excellent technical paper entitled "Stabilization of Flow through Control Valves" at the Joint Power Generation Conference held in Portland, Oregon. Please convey our congratulations and thanks to Dr. Pluviose for his efforts in preparing the paper and making a lucid presentation.

The paper's contribution was original and added significantly to the value of the technical sessions. This would not have been possible without your active support and sponsorship of the author for the conference. On behalf of the American Society of Mechanical Engineers and as the Chairman of the Session, I thank you very much for your support and encouragement.

With best regards,

Yours very truly,

A handwritten signature in dark ink, reading "Nagraj R. Eleswarapu". The signature is fluid and cursive, with the first name "Nagraj" being the most prominent.
